Lighting

CC Amstel is been built as a fully led lighted theatre not only to use the latest technical standard but foremost to bring a low energy and environmental friendly alternative. This makes careful preparation for our guests necessary. Please contact us and ask whatever you would like to know. We will do our best to make the build of the show like in any other theatre. Beside our led equipment, conventional lighting is possible by the use of several dimblocks. The amount of conventional fixtures in store however is limited. Conventional light is powered by shuko cables and multiblocks.

In bridge 6 groups 16 A for light
2 groups 16 A tbv vaste spanning

In Foyer	1	32 Amp for light
	1	16 A geluid

Safety

Equipment brought into CC Amstel is subject to safety checks by CC Amstel staff. All mains-connected electrical equipment must comply with European safety standards.

Lighting equipment rigged overhead must be secured with a safety chain or similar. Overhead equipment (including scenery) must be rigged by a qualified rigger, using appropriately certified equipment.

Scenery and large props must be of a fire retardant fabric or treated with a fire retardant. A certificate of such treatment must be produced on request. Polystyrene and other such materials that cannot be treated with fire retardant are not permitted.

Entrances and emergency exits must, by law, be kept clear of scenery. For the use of open fire a permit is needed from the local fire department, to be applied for at least 2 weeks in advance. The technical staff can help to obtain the permit.

Pyrotechnics can only be done by a registered pyrotechnician. The procedure to obtain a state permit can take 8 weeks or more.

In accordance with the Dutch legislation a written risk assessment is required for all events, to be presented at least a week in advance.

CC Amstel takes all care, but no responsibility for the loss or damage of any visitor's property, including personal belongings. Artists and technicians are encouraged to refrain from bringing personal belongings not required for the event.

The use of alcohol and drugs during working hours is forbidden by law. Smoking is not permitted in the entire building.
